

Make sure you are in the correct directory:

1. Assume you are in the project's root directory:

```
cd src/frontend
```

2. To run test cases:

- a. Install dependencies: (this includes the necessary libraries to run the project as well as run the test cases)

```
npm install
```

- b. Run test cases:

```
npm test
```

Successful run of all test cases should display as following in your terminal:

```
Test Files  1 passed (1)
Tests      4 passed (4)
Start at   22:08:48
Duration   277ms
```

```
PASS Waiting for file changes...
press h to show help, press q to quit
```

All test files with extension “.test.jsx” are under “src/\_\_\_test\_\_\_” directory, each file corresponds to a component
